Safety or Security Concerns

RCW 69.48.100(1)(d) - Whether any safety or security problems occurred during collection, transportation, or disposal of covered drugs, and if so, completed and anticipated changes to policies, procedures, or tracking mechanisms to address the problem and improve safety and security

During the Reporting Period no safety or security concerns occurred.

Public Education & Outreach

RCW 69.48.100(1)(e) - A description of the public education, outreach, and evaluation activities implemented

Pursuant to RCW 69.48.070, Inmar executed a comprehensive and measurable public awareness and education strategy to drive awareness of the Program and maximize participation. The goal of Inmar's public awareness and education efforts was to ensure that Covered Entities and Authorized Collectors understood where and how to dispose of Covered Drugs.

To accomplish this comprehensive public awareness and education strategy, Inmar deployed a combination of outreach initiatives including printed materials and media communication. Pursuant to RCW 69.48.070(1)(a)-(g), each initiative aimed to instruct Covered Entities by providing at least one, if not all, of the following key messages:

- Promote the safe storage of Legend Drugs and Non-legend Drugs by residents before secure disposal through a Drug Take-back Program
- Discourage residents from disposing of Covered Drugs in solid waste collection, sewer, or septic systems
- Promote the use of the Drug Take-back Program so that where and how to return Covered Drugs is widely understood by Covered Entities, pharmacists, retail pharmacies, health care facilities and providers, veterinarians, and veterinary hospitals

Additionally, Inmar established a Program Toll-free Phone Number and Program Website that Covered Entities can utilize to find out more information about the Program. A summary of each of the initiatives deployed as part of Inmar's public awareness and education strategy is provided below.

Educational and Outreach Materials

In accordance with RCW 69.48.070(1)(e), materials have been created and made available to Covered Entities. Educational materials promote the safe and secure storage of Covered Drugs while educating Covered Entities on best practices for the disposal of Covered Drugs through the use of the Drug Take-back Program.

These materials:

- Provided instruction on how to safely store Covered Drugs at home
- Informed of the risks of disposing of Covered Drugs in inappropriate waste streams (e.g., solid waste collection, sewer, or septic systems)
- Informed Covered Entities about Collection Sites and Mail-back Program services

Kiosk Signage

Kiosk Signage was created and implemented to educate and assist Covered Entities in the proper storage and disposal of Covered Drugs. In accordance with RCW 69.48.070(1)(g) and in partnership with the other Program Operator, a common mark logo was created to provide a common symbol for Covered Entities to identify Collection Methods and educational materials that are part of the Program.

Press Release

A press release was created and circulated across different media outlets to introduce Inmar to Covered Entities and potential Authorized Collectors and Mail-Back Distribution Sites.

Programmatic Media

In accordance with RCW 69.48.070(1), Inmar targeted Covered Entities through programmatic media that provides targeted display ads on browser sites on internet capable devices (smart phones, computers, tablets, etc.). Additionally, geo-targeting was used to focus the ads to increase awareness in middle to smaller sized cities, as well as other geographic and demographic groups. Inmar ran ads across a prequalified list of over 200K domains including a variety of retail websites, Google, and Facebook. Impression metrics are reported directly from the individual websites that the ads are placed on and are reported on a per campaign basis.

Influencer Marketing

In accordance with RCW 69.48.070(1), Inmar worked with Influencers to create educational and inspirational content that Covered Entities could read and engage with. Influencer Marketing is a content creation tactic used to drive awareness and education to a targeted audience through blogs and social media outlets. Influencers create original authentic content around their everyday lives and interests while weaving the story of safe medication return into their content. Influencer content is converted into paid ad units across social platforms and then targeted to community members across Washington. Paid advertisements for influencer content were run on a variety of platforms including Google, Facebook, and/or Instagram and drove towards a specified impression goal.

Public Awareness Campaign Results

Outreach Activity	Start Date	End Date	Results
Programmatic Fall 2022 Campaign	10/1/22	11/15/22	733,332 Impressions
Influencer Fall 2022	9/8/22	9/22/22	1,268,831 Impressions
Influencer Winter 2022	10/1/22	10/31/22	1,240,980 Impressions
Total Deliverables			3,243,143 Impressions

Program Website and Program Toll-free Phone Number

Pursuant to RCW 69.48.070(1)(d), Inmar established an individually branded Program Website and Program Toll-free Phone Number within the Reporting Period. The URL for Inmar’s Program Website is www.SafeMedicineDrop.com and the Program Toll-free Phone Number is (844) 482-5322. The Program Website can be translated into 19 languages. The Program Website contains a map and list of Collection Sites for all Covered Entities in Washington. Covered Entities are able to request Mailers including Standard Mail-Back Envelopes, Inhaler Mail-back Envelopes, and/or Pre-filled Injector Mail-Back Packages to be sent directly to their residence through the Program Website. The Program Website provides additional information on Inmar’s Program including a Frequently Asked Questions (FAQ) section.

Program Recycling

RCW 69.48.100(1)(f) - A description of how collected packaging was recycled to the extent feasible

DEA § 1317.75(c) prohibits handling substances after they have been deposited into a Kiosk. For this reason, Inmar is unable to separate and recycle drug packaging. Inmar encourages Covered Entities to separate unwanted Covered Drugs from their packaging and recycle the packaging prior to disposal. Even though regulations prevent us from recycling drug packaging, Inmar has an interest in reducing waste and improving our environment. Through its Rx Returns and related business lines, Inmar has saved over 20,000 barrels of oil, recovered over 11,000 megawatts of clean energy, and powered over 900 homes in the past two years alone. We will continue to look for opportunities to expand our eco-friendly efforts in the state.

Plan Collection, Education & Promotion Goals

RCW 69.48.100(1)(g) - A summary of the program's goals for collection amounts and public awareness, the degree of success in meeting those goals, and if any goals have not been met, what effort will be made to achieve those goals the following year

- 1. Establish approximately 194 Collection Sites within Population Centers where Authorized Collectors have been confirmed and outside Population Centers where potential Authorized Collectors are willing to participate in the Program.**
 - a. Inmar established 199 Collection Sites during the Reporting Period.
- 2. Establish approximately 124 Mail-back Distribution Locations in Population Centers underserved by Collection Sites and where consultation with the Department and local health jurisdictions has been achieved.**
 - a. Inmar established 275 mail-back Distribution Locations as of 12/31/22.
- 3. Continue outreach to local health jurisdictions and engage in additional consultations about placement of Mail-back Distribution Locations and Collection Events.**
 - a. Outreach and networking to local health jurisdictions and potential Authorized Collectors and Mail-back Distribution Locations was conducted resulting in an increase of 199 Collection Sites and 275 Mail-back Distribution Locations.
- 4. Mail-back Services available through Program Website and Program Toll-free Phone Number.**
 - a. Mail-Back Services were available to Covered Entities during the Reporting Period.
- 5. Inmar sets a collection goal (for Collection Sites) of 20 pounds per month per Collection Site for a total of 3,880 pounds of Covered Drugs collected from 194 Kiosks monthly and 23,280 pounds in the first 180 days after Plan approval.**
 - a. Inmar did not meet the goal of 20 pounds per month per drop-off site for a total of 23,280 pounds of drugs collected from 194 Kiosks in the first 180 days. When setting these goals, Inmar used the best available data to estimate the amount of drugs typically collected in an average Kiosk among its existing national drug take-back network. Inmar believed these goals to be something to strive for and did not account for the necessary length of time and duration that a Kiosk should exist and build awareness in a community to collect the weights established.
- 6. Coordinate with other approved Program Operators and establish a single system of promotion including Program Website, Program Toll-free Phone Number and customization of Kiosk signage as agreed upon by the Program Operators and the Department.**
 - a. Coordination with the other Program Operator occurred during the Reporting Period with the end result being a Washington common mark logo, joint Program Website, and Program Toll-free Phone Number.
- 7. Begin public awareness and outreach campaign as described in Section IV of (Inmar's) Plan with a goal of reaching 25% of Covered Entities in Washington by 6 months after Plan approval.**
 - a. Public awareness and outreach tactics were run during the Reporting Period
 - b. Below are the results of the outreach activity we ran in the Reporting Period
