

Infectious Disease Operations and Assessment

June 2014

The Office of Infectious Disease (ID) is comprised of programs that support disease detection, investigation, and control activities in the areas of HIV, sexually transmitted disease (STD), tuberculosis (TB), and hepatitis. Operations and Assessment provides support to the ID programs in the areas of state-level leadership, policy development, fiscal oversight and coordination as well as assessment expertise related to monitoring disease trends, evaluating ID program activities, and analyzing and disseminating data.

Services

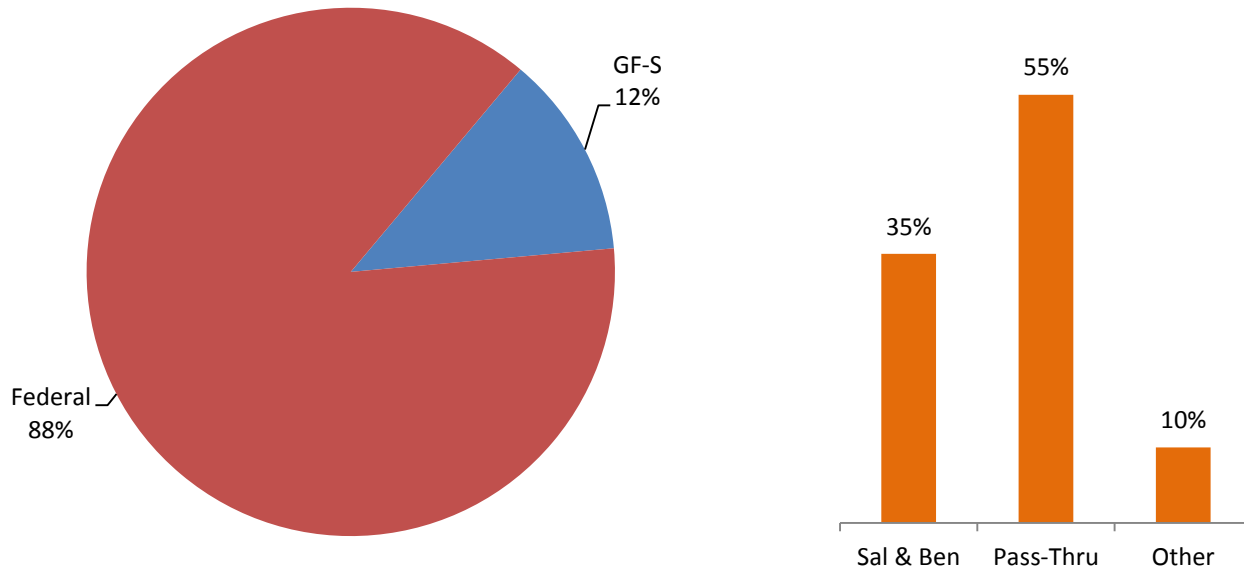

- Provide state-level leadership on ID issues, including policy development
- Develop standards for surveillance, prevention, and service delivery activities
- Lead cross-program collaboration and integration efforts
- Provide cross-program fiscal and administrative support, analysis, and coordination
- Provide connection to national partners
- Collaborate across the agency on issues related to control of infectious disease
- Monitor disease trends of HIV, STD, TB, and hepatitis
- Evaluate effectiveness of HIV, STD, TB, and hepatitis prevention efforts
- Provide technical assistance to local health jurisdictions on disease reporting and investigation issues
- Prepare and disseminate timely data and reports for planning and policy development

Stakeholders

- Community based organizations, including community health centers and tribal health centers
- Community coalitions including, but not limited to, the Washington State HIV/AIDS Community Advocacy Network
- Local health jurisdictions
- Health care providers
- Federal agencies such as the Centers for Disease Control and Prevention and the Health Services and Resources Administration
- National organizations such as the National Alliance of State and Territorial AIDS Directors, the American Lung Association, and the National Coalition of STD Directors
- University of Washington
- Industry partners such as diagnostics and pharmaceutical manufacturers
- Department of Corrections, Health Care Authority, Department of Social and Health Services, Department of Labor and Industries, and the Office of Superintendent of Public Instruction
- Advisory groups

2013-15 biennium
