

# SNAP Market Match in Farmers Markets

PART OF WASHINGTON STATE'S  
FRUIT AND VEGETABLE INCENTIVES PROGRAM

Since 2015, the Washington State Department of Health and dozens of partners have implemented Fruit and Vegetable Incentive programs at farmers markets and grocery stores to make healthy food more affordable for low-income families in Washington. With funding from Washington State, the U.S. Department of Agriculture, and local and private entities, the Fruit and Vegetable Incentives Program helps Washington families on limited budgets afford more fruits and vegetables.

At more than 123 participating farmers markets and farm stands, customers who use Supplemental Nutrition Assistance Program (SNAP) benefits can double their SNAP benefits to buy more fruits and vegetables.
